

Diabetes Depot

End of Year Newsletter

2021 came and went in a flash! Here are some exciting updates
and tips for a healthy holiday season

We're Going on Holidays

We will be taking a holiday break from December 24 to January 3, inclusive. All orders placed from December 23, noon onwards, will be processed and fulfilled when we return on January 4, 2022. If you need supplies for then, please make sure to order before-hand!

Bundle Up – Your Infusion Set + CGM Needs!

How does getting one order with all your insulin pump infusion sets, CGM sensors and even insulin sound? **Now that Diabetes Depot carries all the CGMs - Dexcom, Libre/Libre2 and Medtronic Guardian – we hope you will consider the convenience of ordering all your supply needs from us.**

How does coverage work? If Dexcom and Libre/Libre2 are covered by your drug plan, then Diabetes Depot can process this and you only pay the deductible or co-pay required by your plan. In Ontario, Libre/Libre2 are also covered by the provincial ODB plan, which Diabetes Depot can process. Dexcom is not yet covered by the ODB plan, but they're working on it! Please call or email us if you have coverage questions.

Roche Accu-Chek Spirit Notice

If you use a Roche Accu-Chek Spirit Pump, please know that we are nearing the last of our supplies. Current stock includes cartridges, Rapid D infusion sets (6mm/24" only) and Spirit Combo Service Packs.

My O-Micron! Answering Questions Regarding Boosters and the Omicron Variant

All kidding aside with the title of this section,

like others, you may have questions about Omicron, the COVID-19 variant that is taking the world by storm. Click below to for updates to keep things in perspective.
